

Playing Pitch Strategy Action Plan Update December 2022

watfordlocalplan.co.uk

ACTION PLAN

- 6.1 The site-by-site Action Plan seeks to address key issues identified in the preceding Assessment Report. It provides recommendations based on current levels of usage, quality and future demand, as well as the potential at each site for enhancement. It should be reviewed in light of staff and financial resources in order to prioritise support for strategically significant provision and provision that other providers are less likely to make.
- 6.2 The Council should make it a high priority to work with National Governing Bodies (NGBs) and other partners to create a priority list of actions based on local priorities, NGB priorities and available funding. To allow for facility developments to be programmed within a phased approach, the Council should adopt a tiered approach to the management and improvement of outdoor facilities and associated provision.
- 6.3 The identification of sites is based on their strategic importance within Watford i.e. they accommodate the majority of demand, or the recommended action has the greatest anticipated impact on addressing shortfalls (identified either on a sport-by-sport basis or across the Council area as a whole).

Table 6.1: Proposed tiered site criteria

Criteria	Hub sites	Key centres	Local sites
Site location	Strategically located in Watford. Priority sites for National Governing Bodies of Sport (NGBS).	Strategically located within the analysis area.	Serves the local community.
Site layout	Accommodates three or more grass pitches, including provision of an artificial grass pitch.	Accommodates two or more grass pitches.	Accommodates one or more pitches.
Type of sport	Single or multi-sport provision. Could also operate as a central venue.	Single or multi-sport provision. Could also operate as a central venue.	Single or multi-sport provision.
Management	Management control remains within the local authority/other provider or with an appropriate lease arrangement through a committee or education owned.	Management control remains within the local authority/provider or with an appropriate club on a lease arrangement.	Management control remains within the local authority/provider or with an appropriate club on a lease arrangement.
Maintenance regime	Maintenance regime aligns with National Governing Bodies guidelines.	Maintenance regime aligns with National Governing Bodies guidelines.	Standard maintenance regime either by the club or in house maintenance contract.
Ancillary facilities	Good quality ancillary facility on site, with sufficient changing rooms and car parking to serve the number of pitches.	Good quality ancillary facility on site, with sufficient changing rooms and car parking to serve the number of pitches.	No changing room access on site or appropriate access to accommodate both senior and junior use concurrently (if required).

- 6.4 Hub sites are of strategic importance and users are willing to travel to access the range and high quality of facilities offered. They are likely to be multi-sport. These have been identified on the basis of the impact that the site could have on addressing the issues identified in the assessment.
- 6.5 Key centres are more community focused sites, although some are still likely to serve a wider area. There may be more of a focus on a specific sport.
- 6.6 Additionally, it is considered that some financial investment may be necessary to improve the ancillary facilities at both hub sites and key centre sites to complement the pitches in terms of access, flexibility (i.e. single-sex changing if necessary), quality and that they meet the rules and regulations of local competitions.
- 6.7 Local sites refer to those sites offering minimal provision or that are of minimal value to the wider community. Primarily they are sites with one facility or a low number of facilities that service just one or two sports. The level of priority attached to them for external investment may be relatively low.
- 6.8 For local authority sites, consideration should be given, on a site-by-site basis, to the feasibility of a club taking on a long-term lease (if not already present), in order that external funding can be sought. Such sites will require some level of investment, either to the outdoor sport facilities or ancillary facilities. It is anticipated that one of the conditions of offering a hire/lease is that the Club would be in a position to source external funding to improve/extend the provision.
- 6.9 Other sites considered in this tier may be primary school sites or secondary school sites that are not widely used by the community or that do not offer community availability.
- 6.10 Some local sites are suitable for rationalisation providing that capital receipts are allocated to replace the lost provision at larger, multi-pitch sites.

Management and development

- 6.11 The following issues should be considered when undertaking sports related development or enhancement:
- ◀ Financial viability.
 - ◀ Security of tenure.
 - ◀ Planning permission requirements and any foreseen difficulties in securing permission.
 - ◀ Adequacy of existing finances to maintain existing sites.
 - ◀ Business Plan/Masterplan – including financial package for creation of new provision where need has been identified.
 - ◀ Analysis of the possibility of shared site management opportunities.
 - ◀ The availability of opportunities to lease sites to external organisations.
 - ◀ Options to assist community groups to gain funding to enhance existing provision.
 - ◀ Negotiation with landowners to increase access to private hub sites.
 - ◀ Football investment programme/ third generation artificial grass pitch development with the FA and Football Foundation.

Partners

- 6.12 The column indicating partners refers to the main organisations that the Council would look to work with to support delivery of the actions. Given the extent of potential actions it is reasonable to assume that partners will not necessarily be able to support all of the actions identified but where the action is a priority and resources are available, the partner will endeavour to provide support.

Priority

- 6.13 Although hub sites are mostly likely to be a high priority level as they have wider importance, high priority sites have been identified on the basis of the impact that the site will have on addressing the key issues identified in the assessment. Therefore, some key centres and local sites are also identified as having a high priority level. It is these projects/sites which should generally, if possible, be addressed within the short term (1-2 years).
- 6.14 The majority of key centres are a medium priority, having a more localised importance and have been identified based on the impact that the site will have on addressing the issues identified in the assessment.
- 6.15 The low priority sites tend to be single pitch or single sport sites and are often club or education sites with locally specific importance but that may also contribute to addressing the issues identified in the assessment for specific users.

Costs

- 6.16 The strategic actions have also been ranked as low, medium or high based on cost. The categories are:
- ◀ (L) -Low - less than £50k;
 - ◀ (M) -Medium - £50k-£250k;
 - ◀ (H) -High £250k and above.
- 6.17 These are based on Sport England's estimated facility costs which can be found at:
<https://www.sportengland.org/facilities-planning/design-and-cost-guidance/cost-guidance/>

Timescales

- 6.18 The Action Plan has been created to be delivered over a ten-year period. The information within the Assessment Report, Strategy and Action Plan will require updating as developments occur.

The indicative timescales relate to delivery times and are not priority based:

- ◀ (S) -Short (1-2 years);
- ◀ (M) - Medium (3-5 years);
- ◀ (L) - Long (6+ years).

Aim

- 6.19 Each action seeks to meet at least one of the three aims of the Strategy; Enhance, Provide, Protect.

				The remaining two squares have football pitches overmarked on the outfields. One is poor quality and one is standard quality. The poor quality score is overplayed, and this is primarily due to its poor quality.								
		Bowls		Disused – currently one disused green following the closure of Owl Bowls Club in March 2019.	There is no evidence to suggest that this needs to be retained as a bowling green and therefore options should be explored to utilise the land for other sporting uses. If this is not feasible and the bowling green is lost for non-sporting uses, mitigation should be provided by making qualitative improvements to the surrounding sports provision.	BE Council		L	L	L		Outdoor bowls has ceased. Will look at future uses as part of Woodside redevelopment project.
		Athletics		One good quality athletic track which is an eight lane, synthetic 400 metre track located at Woodside Athletic Stadium. The stadium provides a 700 seater covered spectator stand. The Woodside Track currently has a 'working towards' status for accreditation. Of the six units, it has passed two, has two pending accreditation and is working toward another two (see footnote for details of TrackMark units).	Sustain quality by upholding the current maintenance regime. Work towards gaining full TrackMark certification.	EA Council		L	L	L		Looking at re-providing new public toilets as part of Woodside redevelopment project. Lighting has been replaced with LED.
		-		Watford Borough Council has been working to develop a masterplan and feasibility study for Woodside Playing Field. The outline plans feature a new community sports hub which will service existing and future sporting demand on the site. The current ancillary offer is poor quality.	Given the identified ancillary offer for both football and cricket is poor, the opportunity to develop a new community hub which can service all current sporting users which be highly beneficial to the area. The Watford Local Football Facility Plan identifies the existing pavilion as needing replacement and this may provide a potential funding opportunity if so required. -	Former Meriden Primary School Playing Field	-	Hertfordshire County Council	Lapsed school playing field at the former Meriden Primary School. The playing field is proposed as a development allocation in the emerging Watford Local Plan (Site HS8). The playing fields are the detached playing fields of Parkgate Junior School but these are not used by the school.	Site should be protected from development or replacement (unless adequately re-provided elsewhere in accordance with Sport England's Playing Fields Policy Exception E4), as there is potential need for playing field land to accommodate more pitches to meet the identified shortfalls. Given that the site is lapsed, if it is considered that mitigation can be delivered through qualitative improvements to existing sites, local sites which require improvements to pitch quality and/or ancillary provision are Harebreaks Recreation Ground and Lea Farm Recreation Ground.	Hertfords hire County Council Sport England	Local site	-	-	-	-	No update provided.
-	Land at Alban Wood Former Playing Field	-	Hertfordshire County Council	Lapsed playing field site. Previously accommodated demand from Alban Wood Junior School.	Site should be protected from development or replacement (unless adequately re-provided elsewhere in accordance with Sport England's Playing Fields Policy Exception E4), as there is potential need for playing field land to accommodate more pitches to meet the identified shortfalls. Given that the site is lapsed, if it is considered that mitigation can be delivered through qualitative improvements to existing sites then Woodside Playing Field is the nearest site in its locality. The site requires improvements to its cricket squares, football pitches and onsite ancillary provision.	Hertfords hire County Council Sport England	Local site	-	-	-	-	No update provided.
