Dear Resident,

Green Lane – Implementation of No Waiting at Any Time Restrictions

Further to the statutory consultation process, on proposals for No Waiting at Any Time on Green Lane, I can now advise that all comments and objections received have been reported to your local Ward Councillors & Portfolio Holder for their consideration.

The decision has been made to implement the No Waiting at Any Time restriction as advertised. A copy of the decision report can be found on the council website.

This decision was made on the basis to improve road safety and visibility for road users. Whilst some residents would want to see restrictions further extended to cover the entire road, this was considered to be excessive as the carriageway width does enable cars to park in a safe manner kerb side.

The lines will be introduced on street, week commencing 20th December, subject to suitable weather conditions, and cones will be placed in the area on Sunday 19th December.

Yours sincerely,

Andrew Sturgeon
Traffic Engineer
